

FIRE EXTINGUISHER

PRODUCT CODE
FXM_ _

DRY CHEMICAL: AB(E)

A: TRASH,
WOOD, PAPER

B: FLAMMABLE
LIQUIDS

E: ELECTRICAL
EQUIPMENT

1.0 kg

2.5 kg

4.5 kg

9.0 kg

APPLICATIONS: A good general purpose extinguisher, these units are suitable for A Class fires such as those involving wood, paper, cloth, rubber, many plastics and ordinary combustibles. They can be used for B Class fire situations involving flammable liquids such as oils, paint, petrol and solvents. These extinguishers can also be used on E Class energised electrical fires such as those involving switchboards and electrical motors.

CONSTRUCTION: Rugged epoxy coated all steel cylinders, which resist corrosion, dents and punctures. All models feature an easy to operate rugged brass valve assembly while the 4.5kg and 9.0kg models are fitted with durable steel handles.

Australian Standards Approval AS1841.5
