WET CHEMICAL

**F: COOKING
 FATS & OILS**

**A: TRASH,
 WOOD, PAPER**

2.0Lt

7.0Lt

APPLICATIONS: Our wet Chemical extinguishers are specially designed for use on F Class fires involving cooking fats and oils. Typical applications may be found in Commercial Kitchens, Take Away Food Shops, Nursing Homes and food preparation areas containing Deep Fryers. They may also be used on A class fires involving paper, wood, cloth, many plastics and ordinary combustibles. Wet Chemical extinguishers are available in 2.0litre & 7.0 litre sizes.

CONSTRUCTION: Powder coated stainless steel cylinders, which resist corrosion, dents and punctures. All models feature an easy to operate nickel plated brass valve assembly and tough stainless steel handles.

Australian Standards Approval AS1841.3
